| 2 | 3-4 | If the offender dos not sign the acknowledgement form during intake and later wished to participate in education, will the teacher have the inmate sign the form as the CSS does not always know when the inmate signs up for classes? | If an offender deterimines at a later date that they wish to access electronic equipement, it is still the responsibility of the CSS to ensure the form is signed and uploaded to OMS |

| Directive - Pg 1. | 20-22 | <p>Suggestion (changes are in bold underline): DOC may authorize offenders to utilize electronic equipment and access specific files, portals, and applications. Prior to any electronic equipment usage, offenders shall be made aware of, and agree to, all rules and limitations imposed by DOC. DOC shall employ IT security measures to ensure offenders only have access to approved files, portals, programs, or webpages. Offenders found to be in violation of this policy, or attempting to violate this policy, shall face disciplinary action and may be denied access to electronic equipment in the future.</p> <p>Suggestions (changes are in bold underline): Offenders are prohibited from using any DOC computer or electronic resource to access any file, program or webpage they are not expressly given permission to access. Any offender found to be accessing any prohibited files, programs or websites, shall face disciplinary action which can include suspension of the privilege to access computers or other electronic resources.</p> | Language around files was added to the guidance document. |

| General | | In the documents use the language inmate/offender. I assume that this directive applies to both facility and field and using both will clarify that. The directive uses one and the other when the location of the person hasn't changed. | Will review for continuity |
