COMMENT SHEET

Comment #:	Document:	Page #:	Line #:	Comment:	Responses:
<i>Rose Webber and Lynn Bushey</i>					
1	Directive	1	11	Replace 1. Prevent elicite use to 1. Deter and/or address elicite drug use	Have changed.
2	Directive	2	35	Re-word: to ensure...to promote and monitor positive offender behavioral	Have changed.
3	Directive	2	36	add: compliance with risk reducing programming and offender case plan	Have changed to just be case plan
4	Directive	2		What are mandated services? RRP? This paragraph does not seem necessary as this is included in the previous paragraph	Please refer to the Case Management directive to understand mandated services, not that these two sections identify two distinct tests.
<i>Maria Godleski</i>					
1	Directive	1	36	what does "treatment programming" refer to? Does it mean community drug treatment? The next section is related to RRP.	This has been deleted.
<i>Josh Rutherford</i>					
1	Directive			I disagree on whether a local procedure is required. I believe a local procedure is required to designated who will be responsible for conducting such tests, when, where they will be conducted, who will be responsible for managing supplies and how results are to be reported out. It's a short procedure, but would be helpful.	They are not required - doesn't mean you cant figure out how to implement
