VT Department of Corrections:  
**Sentenced Only Inmates- Minimum Release Report 3/13/2020**

This report contains point-in-time analyses that are up-to-date as of 10pm on the date listed. The information in this report includes inmates who were sentenced for their crime(s), without detained or hold status(es), in Vermont in-state and out-of-state facilities. See below and the next two pages for an explanation of the information contained in this report.

**Housing Inmates Past Minimum Release Reasons:**

Convicted offenders are sentenced to serve a minimum and maximum term by the court for each crime they commit. Inmates may be housed past their minimum release date but must be released by their maximum release date. Inmates with a "sentenced only" booking status (without detained, hold status) are eligible for release by the authority of the Commissioner of Corrections. All other booking statuses require action by another authority (such as the court) for release. See below for explanations/examples of reasons why someone might be housed past their minimum release date.

**Furlough Violation/Inappropriate for Furlough:** Returned from community supervision for a fixed length of time due to a technical violation, or "interrupting" release to furlough due to inmate's behavior/risk to community

**Graduated Sanction:** Short term incarceration in response to technical violations that allow for continuation in completing community sentence

**Hold for US Marshals/Other State:** Held in VT facilities until under appropriate federal/state jurisdiction

**Incomplete Programming:** Required programming in progress, pending start, or termination/suspension due to behavior issues

**Lack of Housing:** No appropriate housing upon entry into the community

**Pending Other Charge(s):** Ex: Violation of supervision that results in new charge

**Refusing Furlough/Mandated Services:** Refusing services required by sentence or furlough placement

**Scheduled for Release at Max Date:** Due to concerns for safety of community, scheduled to release at maximum end date

**Violent Crime/Inappropriate for Release:** Offenders who committed violent crime(s) and are unsafe for release to community

Booking Statuses:

The following list describes the booking status for inmates housed in VT correctional facilities (either in-state or out-of-state). Booking Status indicates the person’s circumstance relative to their court case.

**Sentenced Statuses:**
- Sentenced: convicted of crime(s)
- Sentenced/Detained: convicted of crime(s) and held pre-trial for other crime(s)
- Sentenced W/Hold: convicted of crime(s) and held for US Marshals or other jurisdiction
- Sentenced/Detained W/Hold: (rare) convicted of crime(s), held pre-trial for other crime(s), and held for US Marshals or other jurisdiction

**Detained Statuses:**
- Detained: awaiting conviction for crime(s)
- Detained W/Hold: awaiting conviction for crime(s) and held for US Marshals or other jurisdiction

**Hold Status:**
- Hold: being held for US Marshals or other jurisdiction

NOTE: Inmates in each booking status are considered in the custody of the Commissioner of Corrections. The Commissioner has authority to make release decisions for inmates with a "sentenced only" booking status consistent with the law and taking public safety into consideration. All other booking statuses require action by another authority (e.g. the court), to release a person from incarceration.

Risk to Reoffend:
The VT DOC utilizes the Ohio Risk Assessment System (ORAS) to determine an offender's risk to reoffend or commit another crime. This measure is used for inmates being housed in correctional facilities and those under community supervision. The department uses the following instruments:

Prison Intake Tool (PIT):
Provided to all inmates sentenced to a year or longer in a correctional facility. Informs risk reduction programming (RRP) eligibility. 4 levels of risk, with scores varying by gender: Low, Moderate, High, Very High

Community Supervision Tool (CST):
Administered to offenders under community supervision: within 2 weeks of intake, 3 months after release from incarceration to community supervision, and/or annually and/or upon significant changes in community status. 4 levels of risk, with scores varying by gender: Low, Moderate, High, Very High

Reentry Tools:
Administered to inmates sentenced to a year or longer. Provided within 6-8 weeks before being released to the community. 3 levels of risk, with scores varying by gender: Low, Moderate, High

Crime Types:
Inmates are classified into different Crime Types based on the most serious crime for which they are sentenced, detained, or held. For example, 01:Fel./Serious. The number (e.g., 01) indicates the severity of the crime ranked from 01-11 from most severe to least severe. Next, the Crime Type displays whether the most serious crime was a felony (Fel.) or misdemeanor (Misd.). Finally, the category of crime is provided (e.g., Serious). See below for examples of each Crime Type. Each inmate is counted once in the crime type data.

Crime Type Examples:
01:Fel./Serious: Aggravated Assault, Aggravated Sexual Assault, Murder
02:Fel./Person: Assault and Robbery, Lewd and Lascivious
03:Fel./Property: Burglary Occupied, Grand Larceny, Arson
04:Fel./Drug: Dealing, Trafficking, Possession and Sale

Risk to Reoffend information includes sentenced only inmates who have a risk assessment completed for their current arrest. High and Very High categories were combined for cohesion across risk assessment tools. Individuals with No Score either do not qualify to be tested or do not yet have one due to the timing of their incarceration. See page 3 of this report for a description of Risk to Reoffend measures utilized by the DOC.
