7. INMATE MOVEMENT DURING COUNT TIME IS STRICTLY PROHIBITED. The inmate housed in a pod/dormitory will remain locked down in the cell/bed until count has cleared.
8. The unit staff may conduct a roster count at any time to account for their respective inmates.

HEALTH SERVICES

1. Full-time and Contract Health Care Professionals are employed by the facility to provide a full range of comprehensive medical, dental, mental health services and diagnostic services. A clinic is operated for sick call, scheduled appointments, and emergencies. Medical observation beds are available as needed. Should an inmate require service at a hospital, he will go to a general hospital.
2. All newly admitted inmates will receive a medical screening as part of the intake process. An inmate who refuses to follow the intake screening will not be classified into the general population for health and safety reasons. An inmate who is admitted on chronic medications will be ordered a 30-day supply. The inmate then will be referred to the physician or psychiatrist for review. The nurse practitioner, doctor, and psychiatrist are responsible for the inmate's care while the inmate is housed at Tallahatchie County Correctional Facility; therefore, any medication prescribed for the inmate prior to him being housed at TCCF may be changed to an equivalent or discontinued.
3. Sick call is conducted according to the Access of Care posted in each living unit. Once an inmate completes a sick call slip, it should be placed in the sick call box or given to a medical staff member. Medical staff picks up the sick call requests after 12:00 midnight each night. All inmates requesting nursing sick call will be seen within 24 hours including weekends and holidays for routine sick call requests. A member of the medical services staff (RN) will evaluate, assess, and treat each inmate who signs up for sick call. If treatment is beyond that staff member's scope of practice, the inmate will be referred to the nurse practitioner for evaluation and treatment or the provider will be called for orders. The inmate will be transferred out of the facility for emergency treatment. Nursing staff will see segregated inmates daily.
4. Any inmate who has an emergency need after sick call hours must report it to the unit officer, who will notify the Shift Supervisor. The Shift Supervisor will contact the Health Services Department. Any inmate who "drops in" to the Medical Department and circumvents this process is subject to disciplinary action.
5. Dental sick call is held five (5) days per week. A sick call form should be placed in the sick call box. The Psychologist and Psychiatrist are available to see inmates for mental health issues.
6. The inmate who is not sick or in need of sick call services, but wants to request an appointment must complete and submit an Inmate Request Form to the Health Services Unit. The request

should be specific about why an appointment is needed, as it will assist the health services administrator in scheduling the appointment with the correct health services provider. If an inmate falsely claims a medical or mental health problem to manipulate staff, a disciplinary charge may be infected.

7. For security reasons, no inmate will be informed of the date or time of an outside appointment.
8. Sick call and medication schedules are posted in each housing unit. Sick Call Request Forms are available upon request.

Pill Call Schedule: 0430
0900
1530
2100

9. The Unit Officer will notify the unit verbally of pill call. It is the inmate's responsibility have his ID in his possession. The exact times for pill call may vary slightly from the scheduled times; therefore, it is the inmate's responsibility to be alert for instructions from the housing unit officer concerning pill call times. The nurse will conduct pill call in the housing unit. After the nurse dispenses the medication, facility staff will conduct a visual search of the mouth and hands to ensure that the inmate swallows the medication.
10. Certain prescription medications may be prescribed by the doctor to keep on the person (KOP). It is the inmate's responsibility to take these medications as directed. KOP medications must remain in their original containers until used. Medication kept after its expiration date is considered contraband and will be removed from the cell. This may subject the inmate to disciplinary action and risk the inmate losing his KOP medication privileges. It is the inmate's responsibility to notify the Medical Department when a medication refill is needed. When there are six days of medication left in the pill pack, the inmate should bring the medication card to pill call or submit an Inmate Request Form to be reordered. When the medication arrives, the inmate will be called to the Medical Department to receive it or the medication will be delivered to the housing unit for segregated inmates. The inmate will also sign for medication that is issued.
11. If the inmate misses the scheduled pill call time because of a court appearance or other staff-mandated reason, the medicine should be requested as soon as the inmate is available to take it. However, the inmate may not substitute one scheduled pill call time for another.
12. Health Care Related Grievances and Health Care Staff Complaints - If you have any complaints about your health care or the health care staff, you can file a grievance (complaint), using the Grievance Form. You can find the Grievance forms in the housing units and the law library. Health Care grievances should be sent to the Health Care Grievance Coordinator. You must attach any necessary documents (for example, Trust Account sheet) to your grievance before submitting.

1. There are two levels of review for health care grievances. Staff will make every effort for a quick answer to your grievance.
2. Some of the rules for health care grievances are:
 - You may submit one grievance every 14 calendar days except for grievances that are deemed emergent by health care staff.
 - Emergent grievances are when the regular grievance time limits of waiting 14 calendar days between filing another grievance would increase risk of injury or might cause other serious and irreparable harm.
 - You must submit your initial grievance for institutional level review within 30 calendar days of the event or acknowledgement of the event.
 - You may submit your grievance to the headquarters' level of review within 30 calendar days of your receipt of the institution level response if you are not satisfied with the decision.
3. Health care grievances received in the health care grievances office that describe health care staff behavior or activity in violation of a law, regulation, policy, procedure, or appears contrary to an ethical or professional standard that could be considered misconduct will be referred to the reviewing authority for processing determination. Only after the health care grievance has been reviewed and categorized as a staff complaint by the reviewing authority shall it be processed as a staff complaint. If the reviewing authority makes a determination that the health care grievance shall not be accepted as a staff complaint, it shall be processed as a routine health care grievance as described above.

****For confidentiality reasons, security will not ask the inmate the nature of his medical issue****

INFECTIOUS DISEASE CONTROL

1. In an institutional setting, both staff and inmates are concerned about infectious disease control. Tallahatchie County Correctional Facility has an Infectious Disease Program. In order to assist with the program, the inmate must report any and all incidents that result in body fluid spills to the unit officer or to the area supervisor if the inmate is not in the housing unit. Annual TB testing also will be performed. Any other such testing and treatment will be done on a situational basis based on active or suspected symptomology.
2. **THE BEST WAY TO KEEP FROM SPREADING DISEASE IS TO WASH YOUR HANDS WITH SOAP AND WATER FOR 20 SECONDS, while scrubbing the hands and wrist area and then holding the hands and wrists down while rinsing the soap off under running water for 10 seconds.** With all of our technology and knowledge, washing your hands AFTER GOING TO THE BATHROOM, eating, working, sneezing, coughing, scratching, etc., is still the best way to decrease the spread of disease. If someone with a cold sneezes on his hand and grabs a door knob, and you walk up and grab the same door knob and rub your eyes or pick your nose guess what? You've just caught their cold.

3. All kinds of organisms, such as, bacteria, parasites (lice, crabs, worms, etc.) and viruses can cause disease. Our main concern is viruses, because the medicines we have for viruses don't normally seem to work as well as medications for parasites and bacteria.
4. The main viruses we worry about are the Human Immunodeficiency Virus (HIV, the virus that causes AIDS) and viral hepatitis. HIV is very dangerous because it attacks the cells that fight infections. If enough of these cells are destroyed then our bodies cannot fight off any disease, even a cold. This virus is most generally transmitted through sexual contact or direct exposure to another person's blood or other body fluids. Having sex with a person of EITHER SEX, getting a tattoo or SHARING A NEEDLE with a person that is infected can spread the virus. **There is not a process that can be used in the pod or cell to make a used needle clean or sterile. You cannot pour alcohol or bleach through a used needle and make it sterile. IT IS STILL DIRTY.** Some symptoms of HIV are short flu-like illness including nausea, vomiting, fatigue (feeling tired), etc., that will normally resolve quickly. After the disease has established itself and done damage to your immune system, you won't be able to fight off infection of any kind.
5. A TB skin test will be performed ANNUALLY. If the inmate comes from another Corecivic facility, the TB skin test results from the last facility is to be accepted. The inmate will have a two-step TB skin test at the first screening facility. If the annual TB skin test has not been completed then it will be completed when he arrives on intake to TCCF and the TB skin test will be read within 48-72 hours. The only exception is if the inmate previously tested positive. An inmate who has a positive TB skin test will be scheduled to have an initial chest x-ray. After the initial chest x-ray, chest x-rays will be completed every three years. The TB skin test will be completed annually and periodically. Any inmate who refuses the TB skin test will be placed in isolation status until that inmate chooses to participate in the TB testing.
6. HIV testing is not performed routinely. If an inmate has reason to believe that testing is needed, the procedure to follow is to sign up for sick call. The nurse practitioner will determine if the test is a medical necessity (if signs and symptoms are present) and provide counseling regarding the testing. The inmate will be required to sign a consent form in order for testing to be performed. There are educational materials regarding HIV available in the Medical Department.

SEXUAL ABUSE AND MISCONDUCT

1. This policy applies to any person employed by the TCCF, including volunteers and independent contractors, assigned to an institution or out of state facility. Sexual misconduct is defined as any threatened, coerced, attempted, or completed sexual assault or sexual conduct between offenders.
2. Reporting procedures: An inmate can report an allegation of sexual assault to any employee, including supervisory personnel, who will then take the report. A staff member, designated by the warden, will conduct an investigation. Medical Department personnel will conduct a screening and follow PREA Protocol to determine whether treatment is necessary. Counseling will be available within 24 hours. Inmates will be informed of these procedures during the orientation process.

3. Some steps to take to protect yourself are: Do not accept gifts from others; do not gamble; do not use, possess, trade, or hold contraband such as drugs or tobacco; do not become indebted to anyone either monetarily or for favors; and do not accept another inmate's offer to protect you.

AMERICAN DISABILITIES ACT (ADA)

1. The institutional ADA Coordinator's name is posted on all housing unit bulletin boards.
2. Contact the ADA Coordinator for assistance with the repair and maintenance of assistive devices.
3. TDD is available through Unit Management staff the same day as requested.

1. An indigent inmate may obtain hygiene products weekly by submitting a request to the warehouse.
2. The inmate discharged or leaving TCCF is required to turn in all property issued by Corecivic. The inmate not returning property will be charged the cost of the items. The cost of the items may be withheld from the inmate's final trust fund check if all Corecivic property is not returned.
3. All property must remain in its original container. Once a container is empty, the container must be discarded. Any property stored in the wrong container or in a mislabeled container will be considered contraband and will be destroyed or used at the discretion of the facility.
4. Upon arrival at TCCF, the inmate will be advised of the property limitations and will be **required** to ship out all unauthorized property to an address that the inmate furnishes or have it picked up by a designated person (with proper identification) at the inmate's expense. If the inmate has a lost or damaged property claim against either a Corecivic Facility the appropriate grievance process shall be followed.

PACKAGES

1. In accordance with *Corecivic Policy*, a quarterly package from a correspondent via an approved vendor will be permitted. The package must come from an approved sales vendor or outlet, the order must be made through the unit counselor, and the order must be paid for in advance by the inmate or family member.
2. The inmate must pay for shipping costs if an unauthorized package or property is mailed to TCCF. If unauthorized property arrives here, it will be disposed of by one of the methods listed below. The inmate may choose to:
 - i. Mail the disallowed property to an address of someone willing to accept it. This mailing will be at the inmate's expense.
 - ii. Return the item to the sender if the inmate has funds to do so.
 - iii. Have the facility destroy the property.

PROGRAMS

An activity list and program schedule are posted in each housing area. Programs include:

- *Religious activities*—TCCF meets the spiritual needs of the inmate by conducting religious services each week. A religious diet or other accommodation request to practice a religious faith should be submitted in writing to the chaplain. The food service department will be provided with a list of all religious diets.
- *Recreation and library*—recreation and library times are scheduled for each inmate on a monthly basis. Access to the legal reference collection and Inter-Library loan is approved by request to the library supervisor.
- *Individual counseling*—individual counseling is available upon written request to the case manager or mental health staff.
- *Work Assignment*—the inmate work program consists of various institutional jobs. The inmate should complete a job application and turn it in to their Case Manager. Inmates must complete a job application to be considered for any job outside the housing unit. Education assignments will be assigned based on the inmate's Work Group/ Privilege group. Inmates must attend all assignments or be subject to disciplinary action. Inmates do not get to pick their assignments. If possible the inmate's preference will be taken in consideration. Once an application has been received by the Job's Coordinator, an inmate will be placed on a waiting list for that assignment provided they are eligible for that position.
- *Substance Abuse*— for inmates who are committed to achieving sobriety, the Residential Drug Addictions Program (RDAP) will provide treatment and the necessary social skills that will help them achieve their goal of living and maintaining a life of sobriety. The RDAP programs offers morning and evening meetings, along with daily group sessions.
- *Academic and vocational education*—General Education Development (GED), Adult Basic Education (ABE), English as a Second Language (ESL), a cognitive behavioral program, and a vocational computer program will be made available in accordance with the needs of the inmate / detainee population. Vocational classes offered at TCCF are Electrical, Plumbing, and Carpentry. Life Skills classes are also offered utilizing the KET Workplace Essentials Workbook. AEIS (Adult Education in Spanish) which is often referred to as INEA is offered inside the housing unit.

No inmate will be allowed in the Job Coordinator's Office unless an appointment has been scheduled. A telephone interview with the Job Coordinator will be scheduled based on Unit Staff availability. Certain jobs may require medical clearance, i.e. food service or barber.

UNIT MANAGEMENT

TCCF uses the unit-management approach, which improves staff and inmate relationships and the delivery of correctional services to the inmate. The unit team consists of the unit manager, case manager, correctional counselor, secretary and housing unit officers. The unit management staff members are

responsible for all matters pertaining to the units. This responsibility includes case management, security, programs, safety, and sanitation. The unit manager serves as an advisor to the administration on matters concerning inmate management and programs.

BARBER SHOP PROCEDURES

The barber shop is open to the general population according to the posted schedule. The barber shop closes during count and meal times. Barbers will perform only regular haircuts. There will be no specialty cuts such as lettering. Only approved barbers will operate barbershop equipment. Each inmate will have access to the barber shop at least once every 30 days. Inmates in segregation, Yard 2 and others with special needs will be scheduled by request only.

URINALYSIS TESTING PROCEDURE

The securing of a urine sample from an inmate, for the purpose of testing for the presence of controlled substances shall be conducted in accordance with Corecivic Policy 9-4. Inmates housed at TCCF will be tested according to the procedures listed below.

- A. Suspect- When there is reasonable suspicion that the inmate to be tested may have recently used a controlled substance or the inmate is discovered to be in possession of a controlled substance or drug paraphernalia or when drugs or intoxicants are discovered in an area controlled, occupied or inhabited by an inmate.
- B. Random Selection- As a condition of the inmates' participation in a specific program, work assignment for which such testing is required, or as a result of selection by the institution/facility's random drug testing selection process.
- C. Mandatory Random Drug Testing (MRDT)- Inmates found guilty of a rule violation related to the use, possession, sale, distribution, or introduction of controlled substances, drugs, or drug paraphernalia, or refusal to submit to a test for controlled substances or drugs shall be placed in a MDRT program for a period of one year. Inmates who are placed on MRDT will be subjected to random urinalysis testing at a frequency of once per month for the first offense, twice per month for the second offense, and four times per month for any subsequent positive U/A test.
- D. Inmates who refuse or are unable to produce a urine sample shall be subject to disciplinary action. If the inmate is unable to provide a urine sample, the inmate shall be encouraged to drink 24 ounces of water to assist in providing a sample. The inmate shall also be allowed up to three hours to provide a sample. If an inmate is unable to produce an acceptable urine sample within this time period, this shall be considered as a refusal to provide a urine sample.

INSTITUTIONAL RULE VIOLATIONS, DUE PROCESS, & APPEALS:

EMERGENCY PROCEDURES

1. There are specific procedures for the emergency evacuation of the inmate's assigned housing unit. In case of an emergency that forces the inmate to evacuate, the inmate simply will follow the evacuation plan, which is posted in the day room by the main door of the housing unit. There are two lines that are sketched on the plan. One line is red, and the other one is blue. The red line indicates the primary, or the first, route to take should it become necessary to evacuate a housing unit. The second line is a blue line, and this is the secondary, or second choice should the primary route be blocked for any reason.
2. In the event of an emergency or a practice drill, the inmate is to listen to the staff member for any orders or directions. It will be to the inmate's benefit to listen to these orders and follow them as quickly and as safely as possible. The evacuation plans and drills are established to aid the inmate in case of an actual emergency. All inmates should familiarize themselves with these plans, their location, as well as the routes that they show. Failure to follow the directives from staff during a drill will result in disciplinary action for failure to follow orders as well as interfering with a staff member in the performance of his/her duties.
3. **Upon an alarm being sounded and/or an announcement made via facility personnel, to "GET DOWN", or the sound of a WHISTLE is heard, all inmates are to immediately cease all movement and assume a "seated" position. No squatting, kneeling or moving from one area to another will be allowed. Responding staff will assess the situation and give further direction as needed, directing inmates to lay prone or move to a different location. A "seated" position is described as, placing you buttocks on the ground while crossing or extending your legs. Those inmates identified as possibly being involved in the incident will be directed by responding staff to get down in a prone position, cross their legs and place their crossed hands in the waist area of their back. Inmates with physical limitations who are unable to assume a "seated" position will be identified with a Mobility Impaired Vest. Inmates confined to a wheelchair will be considered in a seated position. Those inmates not assuming a "seated" position during an alarm shall be approached by staff, placed in restraints and escorted away from the incident. Inmates found to have no documented medical reason for the failure to assume a position on the ground will receive disciplinary action.**

SEARCHES

Frequent, unannounced searches of inmates, cells, and other areas of the facility are conducted as often as necessary to promote the safety and security of the facility. Searches are conducted to detect and prevent the introduction of contraband, to recover missing or stolen property, and to prevent escapes and other disturbances. Searches are to be conducted in a manner that avoids unnecessary force, embarrassment, or indignity to the inmate.

Inmates who have a disability that prevents the standard search methods shall be afforded reasonable accommodations. If the search includes removal or disassembly of a health care appliance, it shall be conducted in a clean setting. Health care appliances attached to the body will be removed only

for inspection during an unclothed body search. If search requires removal of a prosthetic device, a compliant inmate shall be allowed to personally remove it. If forcible removal becomes necessary, health care staff shall be available for consultation regarding safe removal of the appliance.

Types of Searches

1. Frisk or Pat Search: A complete head to toe search of a clothed individual involving observation and feeling the total length of the body, checking all surface areas for contraband/weapons, as well as a thorough search of clothing, including all pockets, collars, cuffs, waistbands and removal of shoes and socks.
2. Unclothed Body Search: All unclothed body searches are to be conducted in private except in emergency circumstances where a legitimate security risk exists. A unclothed body search of an inmate requires that all clothing be removed during the search. An unclothed search will be conducted by staff of the same gender as the inmate being searched, unless a legitimate security interest exists, i.e. mass disturbances or shakedowns, and there is not a sufficient number of same gender staff available.
3. Body Cavity Search: A search of an inmate which includes a visual and physical inspection of the body cavities, including the rectum. Body cavity searches are not authorized at Corecivic facilities and will not be conducted by Corecivic personnel without the prior approval of the Vice President of Operations.

POLICIES

Certain Corecivic policies, the policies being followed by the different states / federal agencies will be available in the library for inmates / detainees of those contracts to review upon request.

PRISON RAPE ELIIMINATION ACT (PREA)

PREA supports the elimination, reduction and prevention of sexual assault and rape within correctional systems. PREA applies to all federal, state and local prisons, jails, police lock-ups, private facilities and community settings such as residential facilities.

Section 10 of the Prison Rape Elimination Act defines the term rape as:

“...the carnal knowledge, oral sodomy, sexual assault with an object, or sexual fondling of a person, forcibly or against that persons will; or not forcibly or against that persons will, where the victim is incapable of giving consent because of his or her youth or temporary or permanent mental or physical incapacity; or...the carnal knowledge, oral sodomy, sexual assault with an object, or sexual fondling of a person achieved through the exploitation of the fear or the threat of physical violence or bodily injury.

What sexual acts are forbidden?

The following sexual acts are forbidden at Tallahatchie County Correctional Facility:

Disruption – Violence

Rape or forcible sexual act

Example: Rape is defined as the penetration, however slight, of the oral, vaginal or anal opening for the purpose of sexual arousal, gratification, or abuse when the victim is incapable through any unsoundness of mind, whether temporary or permanent of giving consent; the victim resists but resistance is overcome by force or violence; where the victim is prevented from resistance by threats of immediate and great bodily harm, accompanied by apparent power of execution; where the victim is prevented from resistance by the use of any intoxicating, narcotic or anesthetic substance administered by or with the privates of the accused; or where the victim is at the time unconscious of the nature of the act.

Sexual Activity

Engaging in sexual activity with another person.

Example: Has active or passive contact or fondling between his/her genitals, hand(s), mouth, buttocks, anus, breast and the genitals; hands, mouth, buttocks, anus, or breast of another person who expressly or impliedly consents to the accused offender’s conduct. Contact can be with or without clothing being worn by one or both parties.

Bestiality

Example: Any sexual contact with an animal.

Indecent exposure

Example: Every person who willfully and lewdly either: exposes his or her genitals in any public place, or in any place where there is present another person or persons who are offended or annoyed thereby; or procures, counsels, or assists any person so to expose his or her genitals where there is present another person or persons who are offended or annoyed.

Making sexual proposals/threats or sexually harassing another person.

Example: Subjecting another person to sexual contact through physical action and/or verbal or written statements without sexual intercourse, and the other person does or does not expressly or impliedly consent to the accused offender's conduct, or the other person is unconscious or otherwise physically incapable of resisting and has not consented to the physical contact.

Inappropriate physical contact

Example: Lingering touching, physical contact or inappropriate kissing.

The acts listed above are prohibited by Corecivic /TCCF policy and violators will be subject to disciplinary actions.

Are there other sexual acts that are forbidden?

Yes.

Staff sexual misconduct is forbidden at TCCF. Staff sexual misconduct is sexual behavior between any TCCF staff member and any offender under the care of TCCF. This includes contractors and other agents of the contracting agencies.

Staff sexual misconduct is forbidden even if it is consensual.

What are my rights?

While the inmate is incarcerated, no one has the right to pressure you to engage in sexual acts. Rape and sexual assault are violent acts. Regardless of your age, race, size, ethnicity, or sexual orientation, offenders should have the opportunity to serve their sentences with dignity.

You do not have to tolerate sexual pressure, harassment, manipulation, or assault. Every offender has a responsibility to eliminate sexual assault and sexual activity. If the inmate is approached, pressured, or assaulted; report it immediately.

To ensure that your environment is safe, if the inmate is aware of another offender being sexually assaulted or involved in sexual behavior, report it immediately.

I can see why rape and sexual assaults are against the rules, but why is sexual activity forbidden? If both people consent, what's the big deal?

There are many reasons why sexual behavior is inappropriate in prison. None of them involve moral judgments regarding sexual preferences. In a prison, sexual relationships, including those that are consensual, foster violence. Some offenders may disapprove of same-sex relationships and attack inmates involved in sexual activities. Fights often occur when a "couple" breaks up, or one partner discovers the other is "cheating."

Eliminating sexual assault and sexual activity promotes a safer environment. In addition, the elimination of sexual activity and sexual assaults promotes an atmosphere where people can concentrate on making the changes in their lives that are necessary for success upon release.

What about confidentiality?

TCCF staff members have been trained to limit the sharing of information regarding sexual assault and sexual activity to personnel who make decisions about the victim's welfare and for investigation/prosecution purposes.

What if I know someone who was sexually assaulted or know of someone involved in sexual activity?

Report it to a staff member immediately.

It is every offender's right to serve his or her sentence with dignity. When others infringe upon that right, they release you from any bond of silence. Prison rape can be eliminated best when people who live in the facility refuse to accept it under any circumstances.

If you fail to report this type of behavior, you erode your own safety. Support others who take the initiative to report this behavior and keep the facility safe.

How do I avoid being assaulted?

You can take steps to protect yourself from being sexually assaulted by:

- Do not accept gifts from others. Gifts and favors usually have strings attached.
- Do not gamble or enter games of skill or chance.
- Does not use, possess, trade, purchase, or hold drugs, alcohol, or tobacco products.
- Do not become indebted to anyone either monetarily or for favors.
- Choose your associates wisely. Do not become involved in gangs or hate groups. Look for people doing positive things to change their lives such as education, programs, religious activities, etc.
- Do not accept another inmate's offers to protect you.
- Stay in well-lit areas where staff can see you.
- Carry yourself in a confident manner at all times. Do not permit your emotions such as fear and anxiety to be obvious to others.
- Trust your instincts. If a situation seems dangerous, it probably is. If you fear for your safety, report it to a staff member.

What do I do if I'm assaulted?

Report it immediately to a staff member who will offer you immediate protection from the assailant and will get you medical attention. Because reporting sexual assault can be difficult, it is important that you understand there are several ways that you can report it.

The first and best choice is to report it immediately to a staff member.

You can also report using one or more of the following:

- By submitting a medical concern form and reporting to a medical staff member during sick call
- Call someone outside the facility who can contact facility administrative staff on a medical concern form
- By submitting a concern form to security staff
- In a letter to the facility head sealed and marked confidential

Remember any method that you use other than reporting directly to a staff member delays you getting help.

Do not shower, wash, drink, eat, change clothing, or use the bathroom, until after you have seen a medical professional trained to examine victims of sexual assault. (There will be a strong desire to clean up after a sexual assault, **it is important that you do not.**)

FOR ADDITIONAL REPORTING PROCEDURES, INMATES WILL REFER TO CORECIVIC POLICY 14-2 "SEXUAL VIOLENCE PREVENTION AND RESPONSE"

What will happen to me when I report a sexual assault?

Medical staff will examine you for injuries, which may not be readily apparent to you. They will also test you for sexually transmitted diseases and collect evidence.

To collect evidence, you will be asked to consent to a sexual assault examination. A medical professional will do this exam. Although, you have the right to refuse the exam, it is critical to collect as much evidence as possible.

You can receive medical attention without submitting to a sexual assault exam. It is important to understand the difference between the sexual assault exam and a medical care for the treatment of injuries and keeping you healthy.

The evidence gathered in the sexual assault exam will be used to prosecute the perpetrator. The evidence can include hair, skin, and body fluids of the perpetrator. However, the medical care you receive during treatment is confidential, unless you sign a medical release form to allow medical information to be used as evidence in the prosecution of the assault.

Do I have to reveal the assailant?

No. However, you are strongly encourage to name the assailant if you know who it was, or do your best to help staff identify the assailant. That is the only way to protect yourself and others from future attacks.

If I am a victim of a sexual assault, where will I be housed and what will happen to my property?

First, you will immediately be protected from the assailant and receive medical care. Beyond that exact answers are difficult because every facility and situation is different. However, here are some general things you can expect.

Sexual assault in the community or in prison is a traumatic and difficult experience, which is often exacerbated by the investigation. Fortunately, the criminal justice system is getting better at helping victims through this experience.

Designated Facility Victim Services Coordinator

Tallahatchie County Correctional Facility has designated the H.S.A. (Health Services Administrator) as the **Facility Victim Services Coordinator.**

The **Facility Victim Services Coordinator's** role is to support you as a victim. It is likely that you will also work with a victim service coordinator that works in the community.

The **Facility Victim Service Coordinator** will not do certain things like advocate for your release on parole, reduce your custody level, or grant you special privileges. However, they can help you cope with a difficult situation.

Handling a sexual assault in a prison facility presents unique challenges that are not present in the community. The perpetrator must be isolated, the victim must be protected, evidence must be collected, and medical attention must be given.

Staff must remain neutral and ensure that all possibilities are considered, for example, false allegations or a perpetrator who claims to be the victim.

In a prison, once the evidence is collected and the statements are taken, the victim can't just go home and alternative housing options are scarce. The unit team will make housing decisions.

- “ Safe housing at the appropriate custody level
- “ Isolation from the perpetrator
- “ Isolation from friends of the perpetrator
- “ Housing in the least restrictive environment possible

Your past behavior can limit the options available for housing. For example, an offender housed in administrative segregation will remain in administrative segregation.

What if I'm falsely accused?

First, remember to avoid situations that put you at risk.

Do not accept gifts from others;

Do not gamble or enter games of skill or chance;

Do not use, possess, trade, purchase, or hold drugs, alcohol, or tobacco products;

Do not become indebted to anyone either monetarily or for favors;

Choose your associates wisely;

Do not accept if another inmate offers to protect you;

Stay in well-lit areas where staff can see you

Carry yourself in a confident manner at all times;

Trust your instincts; and

Don't engage in sexual activity.

False accusations usually arise from vendettas, indebtedness, and gangs & hate groups, or rejection of sexual advances.

If you are falsely accused, cooperate with staff. Do not make threats. Don't attempt to harm or have others harm the person making the allegation. Keep your wits about you. Becoming verbally or physically abusive will add credibility to the allegations and weaken your own credibility. Tell the truth, even if you might be held accountable for your behavior. Lies will only further erode your credibility.

Anyone found to have made a false allegation will be disciplined and/or prosecuted.

What if I'm involved in consensual sex, but later feel that I was manipulated?

Most cases of sexual activity in prison involve manipulation, pressure, or other coercion. It is common that one person who has no history of inappropriate sexual activity is involved with one who has a history of several different partners on many different occasions. When this happens, one is usually a perpetrator, and the other is a victim.

Avoid getting into the situation in the first place. Remember, if you are involved in consensual sexual activity, you are subject to disciplinary action. However, by coming forward, you are taking responsibility for your behavior, which is an important step toward developing the attitude and skills necessary for success in the community. But the most important reason to come forward is to stop a sexual perpetrator from manipulating more victims into destructive behaviors.

Recovering from sexual assault

Any form of coerced or manipulated sexual activity is degrading. Victims of rape and sexual assault may be eligible for victim's services. However, some of these services may not be available until after you are released from prison. Contact your **Facility Victim Services Coordinator** for more information.

REMEMBER
SEXUAL ASSAULT IS A CRIME
ALL SEXUAL ACTIVITY BETWEEN OFFENDERS IS PROHIBITED
ALL SEXUAL ACTIVITY BETWEEN STAFF AND OFFENDERS IS PROHIBITED
IF YOU ARE A VICTIM OF A SEXUAL ASSAULT, REPORT IT IMMEDIATELY.

Allegations of sexual assault will be thoroughly investigated. Perpetrators of rape and sexual assault will be prosecuted and subject to disciplinary action. Sexual perpetrators will be considered for administrative segregation.

It is never appropriate for a staff member to make sexual advances or engage in sexual activity with an offender. Even if the offender wants to be involved with the staff member, the staff member is not allowed to respond.

It is never appropriate for an offender to make sexual advances or comments to a staff member, and such behavior will result in disciplinary or corrective action.

PREA INFORMATION FOR ORIENTATION HANDBOOK

The Federal Prison Rape Elimination Act (PREA) of 2003 drives all efforts to combat sexual abuse and sexual misconduct within our institutions. Offender and staff safety is paramount to the mission of rehabilitation.

In 2012, the Federal Department of Justice issued a final rule adopting national standards to prevent, detect, and respond to prison rape, as required by the Prison Rape Elimination Act of 2003. The goal of this rulemaking was to prevent, detect, and respond to sexual abuse in confinement facilities.

The most important things for you to know are:

Policy

TCCF is committed to providing a safe, humane, secure environment, free from offender on offender sexual violence, staff sexual misconduct, and sexual harassment. This will be accomplished by maintaining a program to address education/prevention, detection, response, investigation, and tracking of these behaviors and to address successful community re-entry of the offender.

TCCF shall maintain a zero tolerance for sexual violence, staff sexual misconduct and sexual harassment in its institutions, community correctional facilities, conservation camps, and for all offenders under its jurisdiction. All sexual violence, staff sexual misconduct, and sexual harassment is strictly prohibited. This policy applies to all offenders and persons employed by TCCF, including volunteers and independent contractors assigned to an institution, community correctional facility, conservation camp, or parole.

Retaliatory measures against employees or offenders who report incidents of sexual violence, staff sexual misconduct, or sexual harassment as well as retaliatory measures against those who cooperate with investigations shall not be tolerated and shall result in disciplinary action and/or criminal prosecution.

Retaliatory measures include, but are not limited to, coercion, threats of punishment, or any other activities intended to discourage or prevent a staff or offenders from reporting the incident(s) or cooperating with investigation of an incident(s).

In order to minimize cross gender exposure, staff of the opposite biological sex will announce their presence when entering the housing unit by stating "Staff on the Floor". This announcement will be made at the beginning of each shift if staff of the opposite gender are assigned, or when a staff of the opposite gender enters the housing unit.

Reporting an Incident

You may report an allegation of sexual violence, staff sexual misconduct, or sexual harassment to any staff member including volunteers or contractors. You may tell a family member or friend, who can report on your behalf. You may also report utilizing the following addresses or telephone numbers:

Each living area will have the various numbers and address to contact to report PREA complaints.

Be advised all telephone calls from the inmate telephone system are recorded. If a PREA allegation is identified through the inmate telephone system, it will be referred to appropriate staff for inquiry or investigation, as appropriate.

PREA Compliance Manager

Each institution has a PREA Compliance Manager assigned who will be responsible to:

- Track and report all PREA allegations made at his/her assigned institution;

- Monitor allegations of retaliation and take appropriate action should those allegations be substantiated; and
- Ensure the victim is notified of the outcome of the inquiry or investigation.

Victim Advocate and Victim Support Person

If you are the victim of sexual violence or staff sexual misconduct while in this institution, you may be eligible to have a victim advocate and a victim support person with you during the medical examination, interviews with law enforcement, and subsequent interviews with medical staff.
