RE: Interim changes to Administrative Directive, # 371.15 *Conditional Re-Entry (12/30/02) Appendix A, Terms of Release*

With the changes to Risk Reduction Programming we have updated our operations to align with those changes. We are revising Appendix A, *Terms of Release (AKA Furlough Agreement)*.

The name has been changed to conditions to *Conditions of Supervision*. These interim changes are effective immediately. Please see the attached newly revised *Conditions of Supervision*. These conditions will be used for offenders on Conditional Reentry, Reintegration Furlough, Medical Furlough, Home Confinement, Home Detention, Treatment Furlough, Pre-Approved Furlough, and Supervised Community Sentence.

These conditions should be used on all new cases moving forward. Previously signed conditions already in place will still be valid until November 1, 2014.

Standard Conditions and Special Conditions (Page 1 and 2) will be for all offenders on the above legal status.

Sex Offender Conditions (Page 3) are for those offenders we supervise as sex offenders

Notice of Escape (Page 4) are for Furlough Cases only

CHANGES

The special conditions of supervision have been revised. They will no longer be program or offense specific. All special conditions of supervision that are imposed must be directly related to the offender's risk. The offender's risk must be able to be articulated by a current risk assessment (LSI, ORAS, DVSI-R) or current behavior. They can be mitigated by a change in risk

assessment score and/or completing programming. They are not to be solely based on the offense.

The sex offender special conditions have also been updated and closely match the conditions from probation for sex offenders.

Additional signature lines have been added
